

What are Pedigree Charts and Family Group Sheets?

Pedigree Charts

A Pedigree Chart records the ancestors from whom you directly descend--those for whom you intend to compile a complete and correct family unit. It organizes your family history so you can see your ancestors in their order at a glance. It is an essential tool as you conduct family history research.

Family Group Sheets

Each piece of information concerning a pedigree ancestor and his/her family is placed on a worksheet, called a Family Group Sheet. A Family Group Sheet contains information concerning a husband, wife and their children. Since the end result of your research efforts will be to compile complete, correct and connected families, the use of family group sheets from the beginning will make the compilation much easier.
